

Anthony Zamudio, Ph.D.

3786 La Crescenta Ave
Suite 101-102
Glendale, California 91208

Phone: 818-546-8885

Coming out, finding that special relationship or learning to live with the one you love are areas that I address in individual or couple psychotherapy. Depression, anxiety, low-self esteem, separations, or trauma are problems where psychotherapy can help bring a better understanding of your life's journey and purpose. As a clinical psychologist for 31 years, I've been trained in a variety of approaches (cognitive-behavioral, family systems, psychodynamic, & somatic models) that can help you through these life challenges and transitions. At UCLA, I received my doctorate and intensive training in Integrative Behavioral Couple Therapy (IBCT) that has been documented as an effective couple therapy approach. I'm also an Associate Professor of Clinical Family Medicine at the Keck School of Medicine of the University of Southern California where I teach medical students and family medicine residents' clinical skills and physician well-being.
